Speaking Topics

Live Long & Prosper (60 mins)

Why thinking like an INDY (an I'm Not Done Yet) can drive incredible personal benefits and open the door to a long and happy life. And how focusing on the key areas of Finances, Relationships, Health and Mindset provides the framework for 50+ success.

Leveraging your 50+ workforce (60 mins)

Many companies fail to leverage the benefits of 50+ workers by reinforcing a sense of lack of opportunity and potential. I talk about the secret of motivating a 50+ workforce and getting the best from them.

Surviving the difficult decade (60 mins)

The years between 50 and 60 are a time of changing perspectives and transition. It's a time of moving from often successful careers to looking for alternative ways to maintain personal relevancy and identity. I offer tried and tested approaches to surviving the difficult decade.

About

Companies and professionals hire me to help them get the best out of being over 50.

Whether it is gaining the benefits of age diversity within an organisation or helping individuals navigate crossroads in their lives and gain clarity about their next steps, my mission is to help people over 50 live their most productive and vibrant life.

I help organisations and individuals solve inertia opening the door to new ways of working and being, leading to greater productivity within companies and more fulfilling lives for individuals.
